Press Release

Vaccine Appointments Being Rescheduled Due to Limited Supply

Due to inadequate supply of COVID-19 vaccine from NC DHHS, Macon County Public Health must reschedule first dose appointments. Those who have already scheduled appointments for their first dose of vaccine have been moved to the front of Macon County Public Health's COVID-19 Vaccine Wait List. Macon County Public Health will contact those on the waitlist as vaccine becomes available to reschedule your appointment. There are approximately 3,000 individuals on the Macon County Vaccine Wait List.

Macon County will be receiving 300 doses of the COVID-19 vaccine from the state each week for the next three weeks. This number is based on population size in Macon County. We appreciate your patience in this unprecedented time. For questions, you can call 828-524-1500, Monday – Friday, 8am to 5pm.

Regardless of which group you fall under, you can register for the COVID-19 Vaccine Wait List at <https://gis2.maconnc.org/VAX/VAX.html>. When the group you fall under is eligible for vaccination, a member of the COVID-19 Vaccine Call Center will contact you to schedule your appointment.

NCDHHS updates its website to reflect the current group eligible for vaccine. You can view the site at <https://covid19.ncdhhs.gov/dashboard/vaccinations>. Macon County Public Health will update its social media pages to alert the public when the state and county advance to the next group of vaccination. At this time, Macon County Public Health and NCDHHS are not scheduling individuals for vaccination in groups other than Groups 1 and 2.
